

Grading Form for final draft reports of IRT1 and IRT2 projects

Name of student: _____ Grade: _____

Title of project: _____

Lab / Supervisor: _____

On a separate page, please provide written feedback on the student's IRT report. You do not need to repeat information from the first draft's feedback form. Instead, focus more on the level of improvement since the first draft, and how well the student fulfilled your expectations for the project. Please use the following questions as a guide:

Evaluation of the practical work by the student:

How well did the student understand the topic / question of the project?

Did the student read relevant literature?

Did the student work independently?

Was the student well integrated in the lab group?

How did the student perform practical work in the lab?

Final report:

How effectively did the student incorporate your comments/edits into the final draft?

Is the report well structured and understandable?

Is the length of the individual sections ok?

How is the English level?

Other areas of improvement, or lack of improvement?

Abstract

Are the questions and methods clear?

Are the results summarized well?

Introduction

Is the goal of the study clear?

Is the amount of information appropriate?

Are clear questions or hypotheses stated?

Materials and Methods

Could you replicate this study based on the information given?

Are the statistical analyses clear and appropriate?

Results

Is the structure of the Materials & Methods replicated in the Results?

Are the statistics appropriate?

How are the Figures and Tables?

Discussion

Are the conclusions logical?

Do they follow from the observations?

Are the conclusions evidence-based?

Citations correct?
